

SGX Announcement. 30 Dec 2008. CDM Registration

Announcement Title *	Successful Registration Of CDM Project For Thermal Energy Recovery By Bee Joo Industries Pte Ltd
Description	<p>The Board of Directors of ecoWise Holdings Limited is pleased to inform the public that its wholly-owned subsidiary, Bee Joo Industries Pte Ltd, has successfully registered its Clean Development Mechanism (CDM) project entitled "Thermal Energy Recovery For New Applications", with the United Nations Framework Convention on Climate Change (UNFCCC).</p> <p>The project involves recovering of waste steam from its biomass cogeneration plant for heating and drying services. Offsetting the use of fossil fuels allows the project to qualify for Certified Emission Reduction (CERs) units, commonly known as Carbon Credits, issued by the UNFCCC CDM Executive Board.</p> <p>The Board would like to caution that this registration is by no means an indication of the final award of CERs.</p> <p>The abovementioned project is not expected to have any material impact on the financial performance of the Group for the financial year ending 31 October 2009.</p>
